

eltic-Plus⁺

Smart Connected World

Ongoing Project

Celtic-Plus Event
Project Ideas and Networking
19st May 2017, Barcelona

Pitch of the ongoing project **FRONT-VL**

Viktor Leek, Telia Company
viktor.leek@teliacompany.com

FRONT-VL

from empowering to viable living

Create a new generation of care

1. Collaboration between ICT, IoT and e-health to enable a more viable life and increase the time at home
2. Existing technology – the innovation lies in the creation of the technical solution that brings it together
3. Will drive towards a new standard, give companies a competitive edge, offer a great network and generate a lot of data for research

Project Coordinator

Telia Company

- One of the largest telecom operators in Northern Europe
- 21 000+ employees
- Present in 14 countries
- HQ in Stockholm, Sweden

Current Consortium

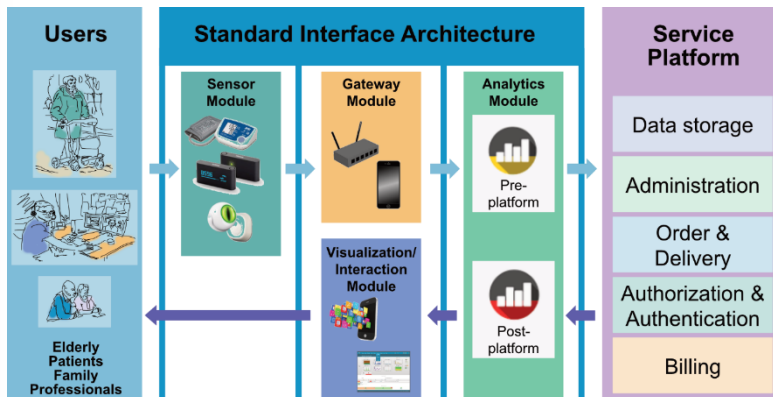

Vision & Solution Approach

THE FUTURE

TECHNICAL SOLUTION

- Modularity
- Standardization
- Flexibility

Using **existing technology** to create a new **service delivery framework** that will create a more **attractive solution** for external stakeholders

Project Plan

We will **prove and materialize** our concept by using the modularity of the eco-system and service delivery framework to deliver services for selected **use cases**

Rehabilitation		Fall Prevention	
Mental Health	Palliative Care	Nutrition Care	

Time Plan

Nov '16	Project kick-off (first funding secured)
Sep/Oct '17	Consortium completed – full speed ahead
Dec '19	Project close-down

Partner Profiles

Representation

- All types of organizations

- A mixed set of capabilities
