CELTIC-NEXT Launch Event

9th of December 2022, Online via WebEx

Pitch of the Project Proposal

AI4SMB

AI4SMB, Robert C. Brunner, COO
info@ai4smb.de

Teaser

AI4SMB - AI for SMBs
AI4SMB is a high-tech software development lab
delivering AI applications and results to Small & Medium-sizes Businesses (SMB)
and innovative enterprises worldwide.

AI4SMB delivers success to companies in healthcare, logistics, manufacturing and
research for more than 15 years.

Organisation Profile

AI4SMB is an EU-based IT-developer consortium and sw development shop.

- *AI4SMB's customers value is its deep expertise, innovative yet pragmatic approach, and our reliability.*
- *With a solid background in AI research since years, and long-term technology partner for startups and innovative enterprises in the US and across the EU.*

Proposal Introduction

AI in practice in the fields of:

- *Applied Artificial Intelligence (AR/VR, avatars and new interactive media, NLP, machine, and deep learning, ...)*
- *Applied Computer Science (hi-availability, hi-performance distributed systems, sw architecture and engineering, scalability, refactoring, mobile apps, ...)*
- *Digital healthcare + pharma, esp. interoperability standards (IHE), clinical data formats (CDA, HL7, FHIR, DICOM, Snomed CT), MDR regulations, telemedicine, precise medicine, patient empowerment.*

Proposal Introduction

- *Technology assessment of potential investments: software architecture, development processes, alignment w/ business plan and team quality.*
- *Helping SMBs with their software development challenges, implementation of improvements and interim management.*
- *Enterprise application which significantly simplifies batch changes of health insurance policies.*
- *Using an efficient UI and smart database techniques, a small team of administrators can execute safe updates of hundred thousands of insurance policies within few hours.*
- *project duration 36 month*

Partners

Existing consortium, involved countries:
2 IT sw boutique & IT security connector & 1 coordinator,
from Czech Republic, Poland & Germany

Expertise, profiles and types of partners you are looking for:
SMBs or corporate teams in demand of AI implementation of complex issues
in healthcare, logistics, manufacturing, retail, and research.
