

CELTIC-NEXT
Project Proposal Pitch
13th of March, Online

EU CARE

***Home Hospital Pilots with
Open Digital Health Operating System***

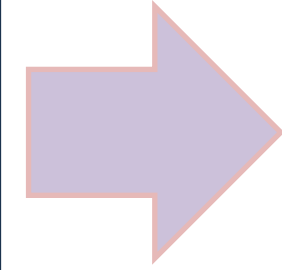

Version for Publication

Donal Morris, CEO RedZinc
dmorris@redzinc.net

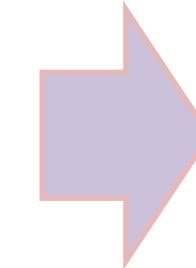

Teaser

VALUE

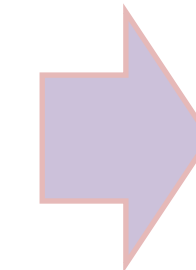

175,000
Home Hospital
Virtual Ward Beds
Coming in Europe

Health Care is moving
from disconnected
health systems to
integrated health
systems

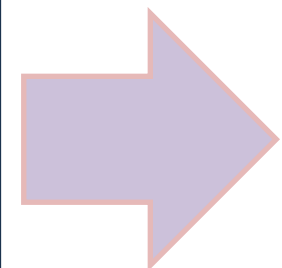

Invitations to pilot
partners to join
EU-CARE Consortium

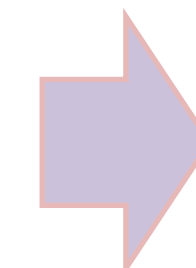

Improve Hospital Capacity
and Efficiency
with virtual & wireless care

Wireless Connected
IoT wearable sensors
will support **remote
monitoring**

We are building Open
Digital Health Operating
System to support
Integrated care

Improve Patient
Outcomes

Organisation Profile

RedZinc's innovative telehealth solutions include

- Video consultation browser software
- Remote sensors and home hospital services
- Emergency call centre video communications
- 4G/5G enabled mobile live video camera with integrated platform

BlueEye is a cutting-edge **cloud-based platform** facilitating **video communications and remote monitoring of patients** for *healthcare providers, connected paramedics, emergency services and community nurses.*

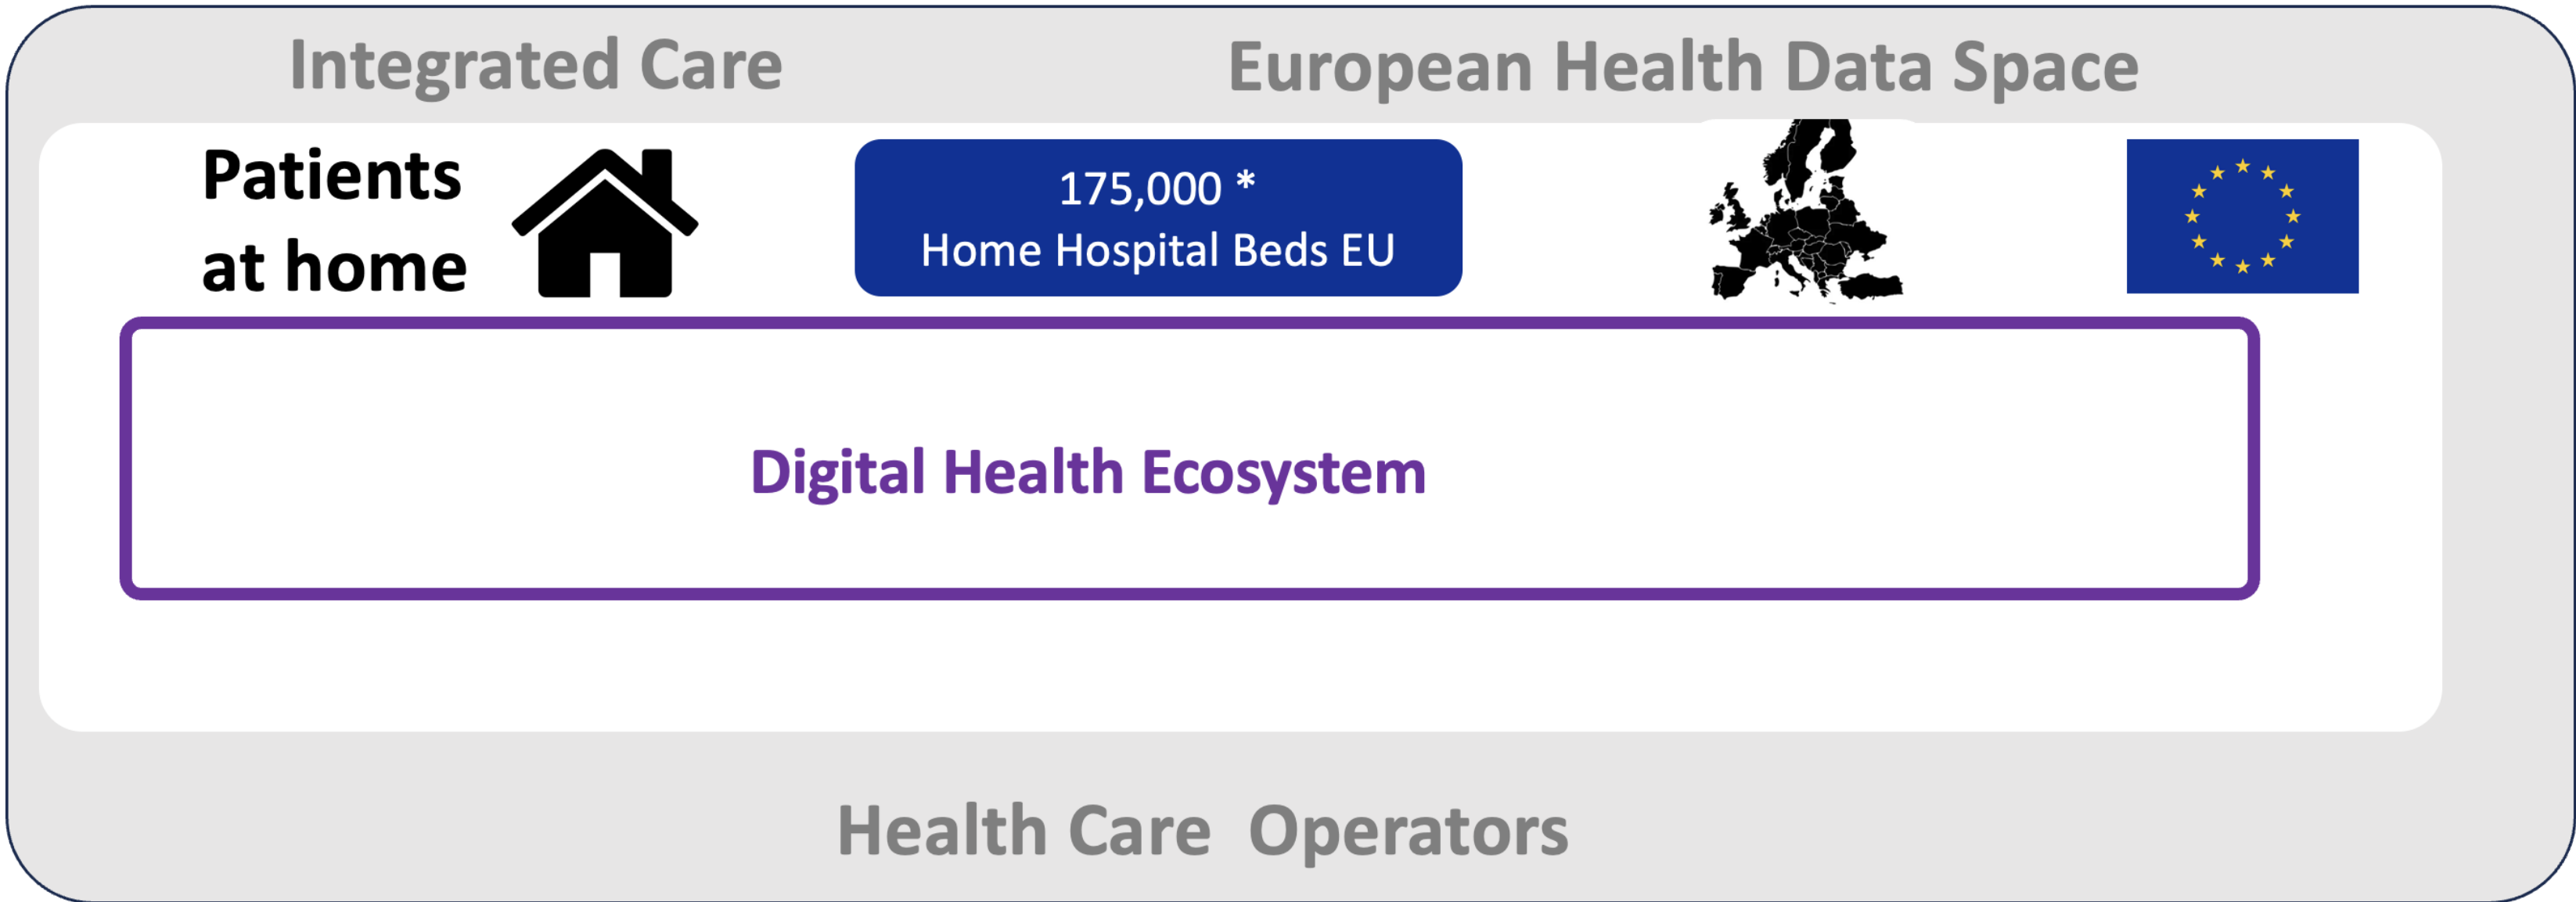

EU CARE – Architecture & Steps

Step 1
Build Ecosystem

Step 2
Integrate Digital Health Apps

Step 3
Home Hospital Pilot Validation

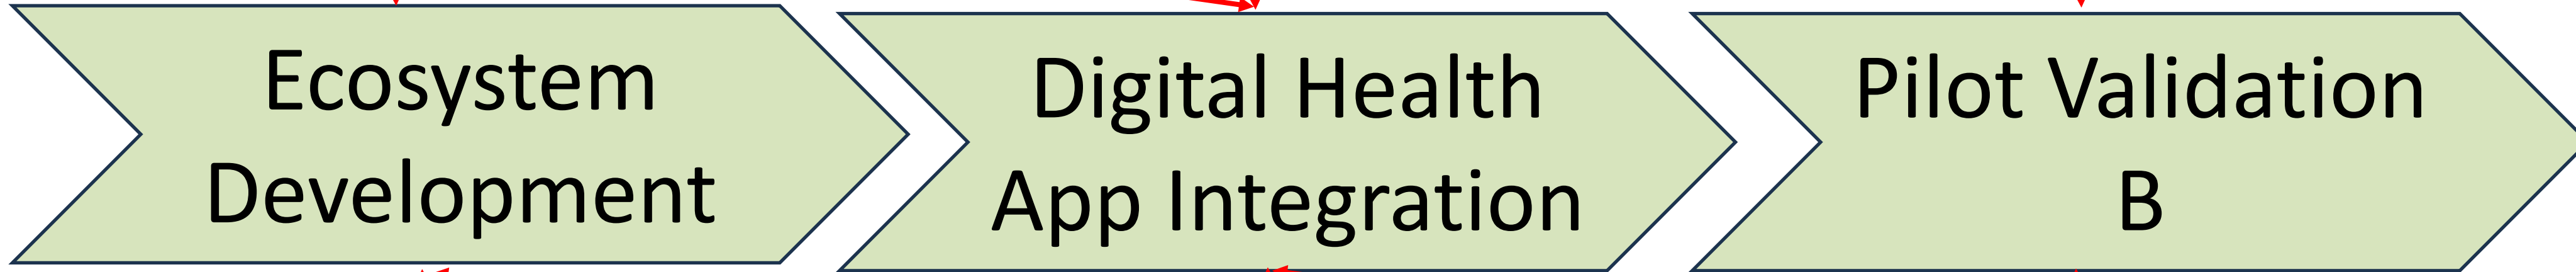

Ecosystem Development & Pilot Validation

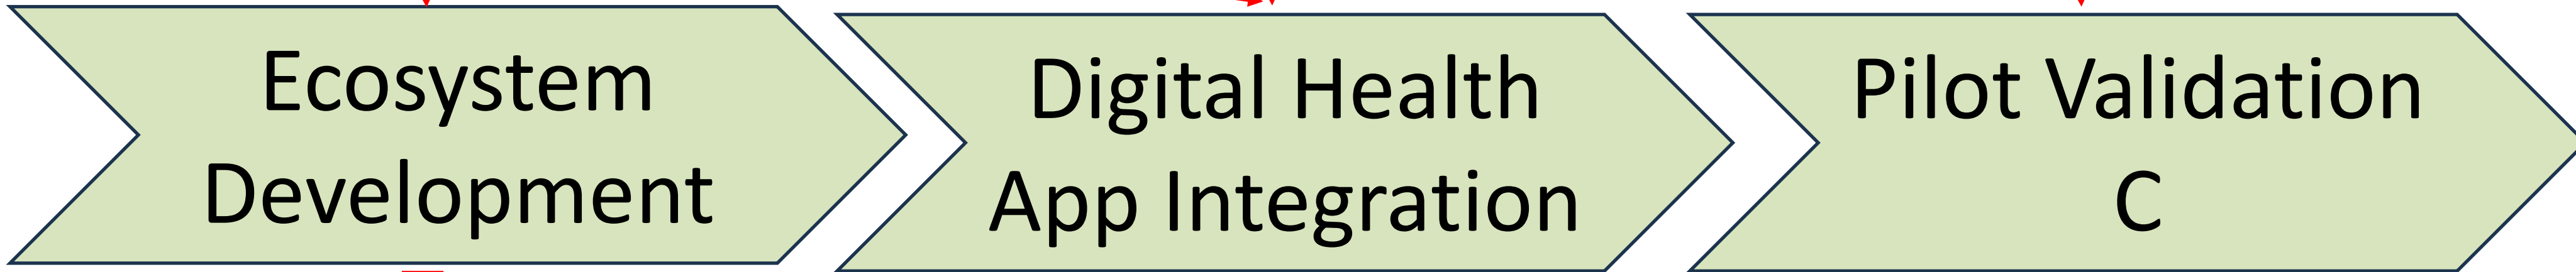

Agile Phase A
M1 to M12

Agile Phase B
M13 to M24

Agile Phase B
M25 to M36

Mature Ecosystem with Multiple Integrated Digital Health Applications
And Biometric Vital Signs IoT Validated in Pan European Pilots
on EU Data Sovereign & Wireless Infrastructure for European Health Data Spaces

Partner Invitation

- Currently in discussion with candidate partners in Ireland, UK, France, Germany, Norway, Korea, Canada
- Invitation to join EU-CARE going to
 - Digital Applications Providers
 - Health Care Operators
 - Hospitals, Clinics, GP Organizations
