GUARD

Generative Unified Anomaly Resolution & Diagnostics

AI-driven service resilience for telecom and OTT infrastructures

Problem

Reactive incident handling
Slow RCA, high OPEX
Peak traffic risks

GUARD brings

Proactive AI-driven resilience
Explainable RCA
Safer automation (human-in-the-loop)

Target stakeholders

Telecom operators (mobile & fixed)
OTT & broadcasters
AI / AIOps technology providers
Research & standardisation partners

Added Value

Multi-source observability (QoE, network, apps)
Explainable AI (not black-box AIOps)
Hybrid / on-prem, GDPR-ready
