

CELTIC-NEXT Proposers Day

25th September 2019, Istanbul

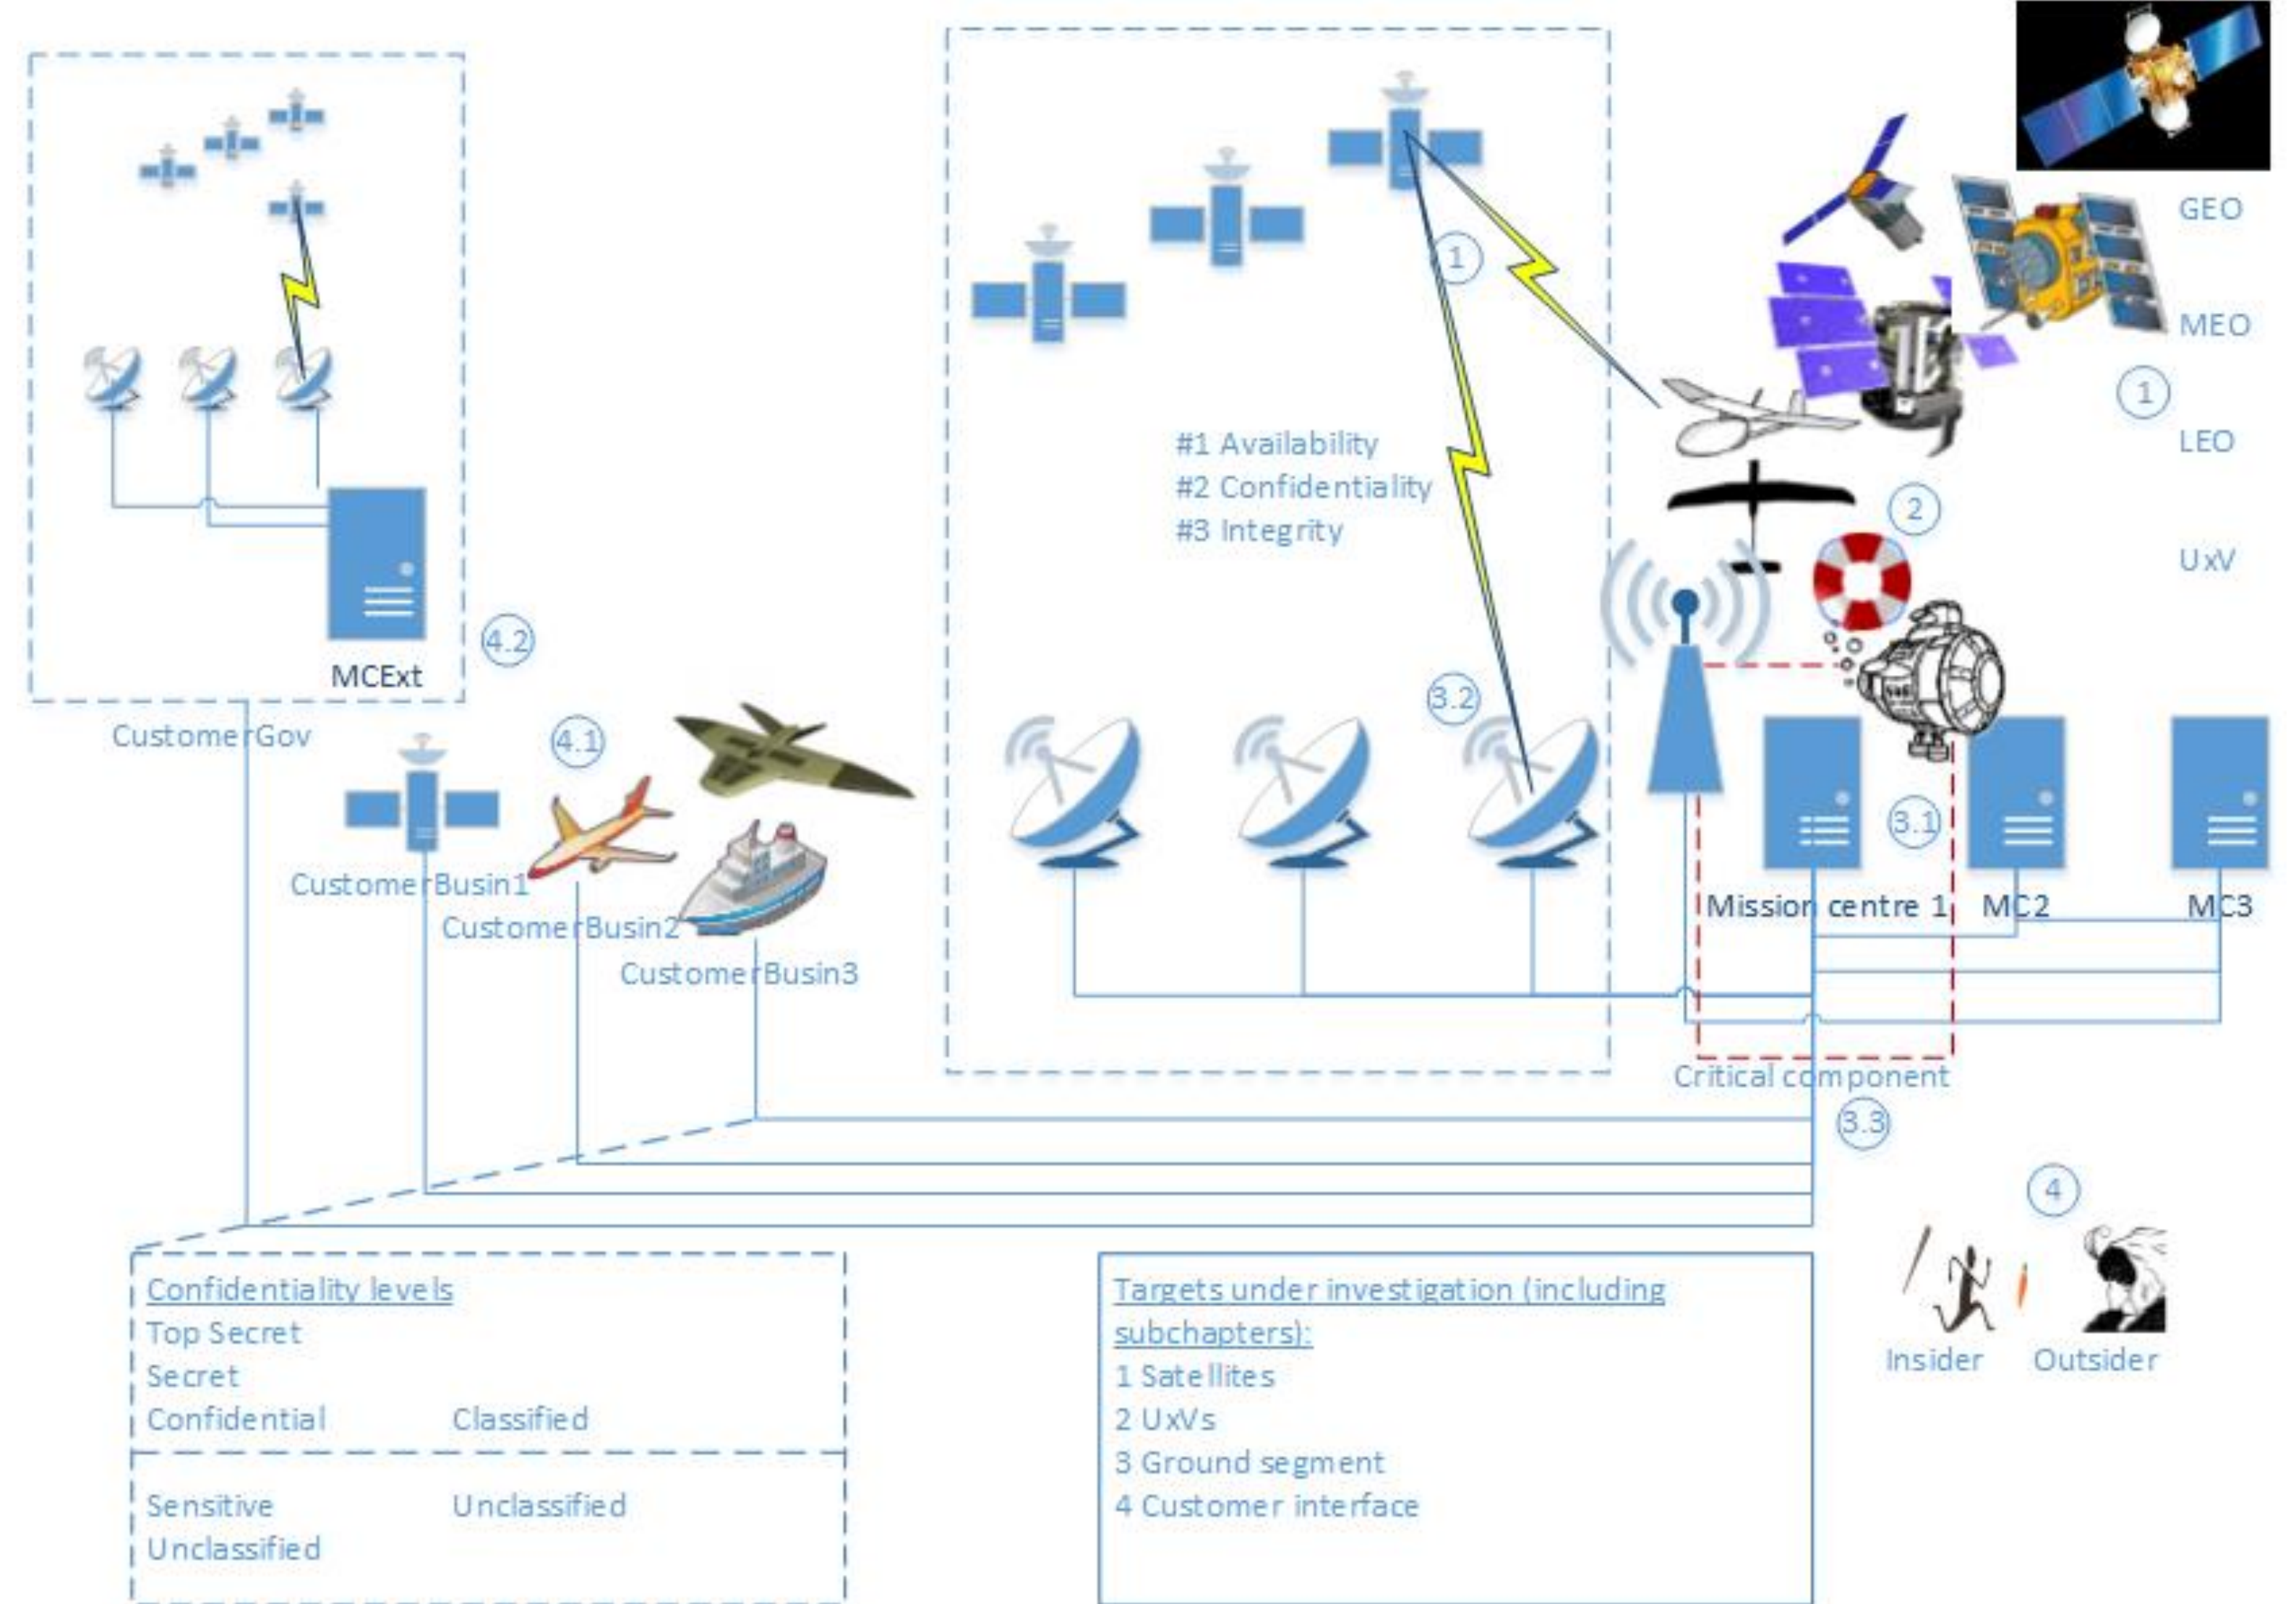

**Ground4U_x^V: Secure Next Generation Ground Segment for
Unmanned Vehicles and Satellites**

**Reijo Savola, VTT Technical Research Centre of Finland
reijo.savola@vtt.fi**

Ground4U^V_x

- Emerging **NewSpace** business is globally bringing a lot of small satellites into orbits
- At the same time, interest in **UxVs** (ground, aerial, surface, underwater) for public safety, science rising
- Many **security** dimensions are vital for commercial use: system-of-systems, communications, platforms, operations, etc.
- **Mission centres and SOCs** in the core role operationally

Headline

Partners sought:

- **Industrial and research partners** with interest in **satellite & UxV technologies and communications and/or security operations and cyber ranges** (including communications and platform security)
- *Project objectives can be fine-tuned based on partners' objectives*
