Proposer’s Day 15 & 16 September 2020
• Strategic STI focus for South Africa
• Eureka’s relevance to the South African National System of Innovation (SA NSI)
• Specific National rules
• Eligible costs and funding rates
• 2019 – new policy - Science, Technology and Innovation - sets the long-term policy direction - a growing role for STI in a more prosperous and inclusive society.

• 2019 White Paper on STI advocated a shift from building the NSI towards increasing the positive impact of the NSI on SA’s priority challenges, which requires more focus on innovation (*inter alia*)

• Innovation requires partnerships between government and business, as well as funding and programme coordination within the public sector

• The 2019 STI WP - more attention to enabling innovation

• Use of STI to help South Africa benefit from developments such as rapid technological advancement and geopolitical and demographic shifts, as well as responding to the threats associated with some of these global trends
DSI Strategic context

- A transformed, inclusive, responsive and coherent NSI
- Human capabilities and skills for the economy and for development
- Increased knowledge generation and innovation output
- Knowledge utilisation for economic development (a) in revitalising existing industries (b) in stimulating R & D led industrial development
- Knowledge utilisation for inclusive development
- Innovation in support of a capable and developmental State
Decadal Plan: Proposed focus

• The circular economy
• Education for the future
• Sustainable energy
• Future of society
• Health innovation
• High-tech industrialization
• ICTs and smart systems
• Nutrition security
• Water security
Beyond health, a post-Covid-19 world will also have transformational social, economic, and environmental impacts accelerating the uptake of other innovations.

For example - online education, remote-health, remote work, data-driven service delivery, and circular economy.

High-tech sector (including small and medium enterprises) - impacted by the challenge of Covid-19.

A dynamic high-tech sector is crucial for the development of high-tech skills.
The DSI is currently engaging with Department of Communications and Digital Technologies (DCDT),

- Affordable broadband access to marginalised communities and e-Education with full bi-direction interactions,
- e-Medicine services to clinics and hospitals and Mobile clinics for point of care services
- Law enforcement requirements that require on the move communications access
- Access to secure communications and networks to government departments
- Post disaster management and guaranteed access to communications
- Government network connectivity services and Universal broadcast and broadband services

Examples
Goal: profile South Africa a preferred destination for international S&T investment and cooperation to support:

- EUREKA facilitates promotes and supports market-oriented international Research, Development and Innovation (RDI)
- Maximize ROI through leverage of foreign direct funding
