

CELTIC-NEXT Proposers Day

23rd of September 2021, Online via WebEx

Pitch of the Project Proposal

Vendin 2.0

H.Punt@connect.nbip.nl

Teaser

1 slide:

What is the main benefit of the idea/proposal?

Cybersecurity threat reduction and security breaches mitigation

What makes the added value?

Reduction of DDoS attacks and lower vulnerability for the EU

Why should I participate in the project?

Help create and implement a EU based cyber security service where now there are only non EU solutions in place.

Organisation Profile

- NBIP is a non-profit organization realizing cyber security services for SME's and internet providers.
- NBIP is more than 20 years active in the security domain and has developed, through extensive R&D projects, a unique service where current security breaches can be addressed and mitigated quickly.
- This service is widely adapted in the Netherlands, already first members outside the Netherlands where NBIP sees the potential of upscaling this proven service in the EU.

Proposal Introduction

Currently NBIP has the mayor marketshare in the Netherlands with DDoS mitigation services. These are developed by NBIP based on a hardware and software innovation.

NBIP wants to upgrade this solution to a vendor neutral services model aiming for a mayor EU market share.

Proposal Introduction

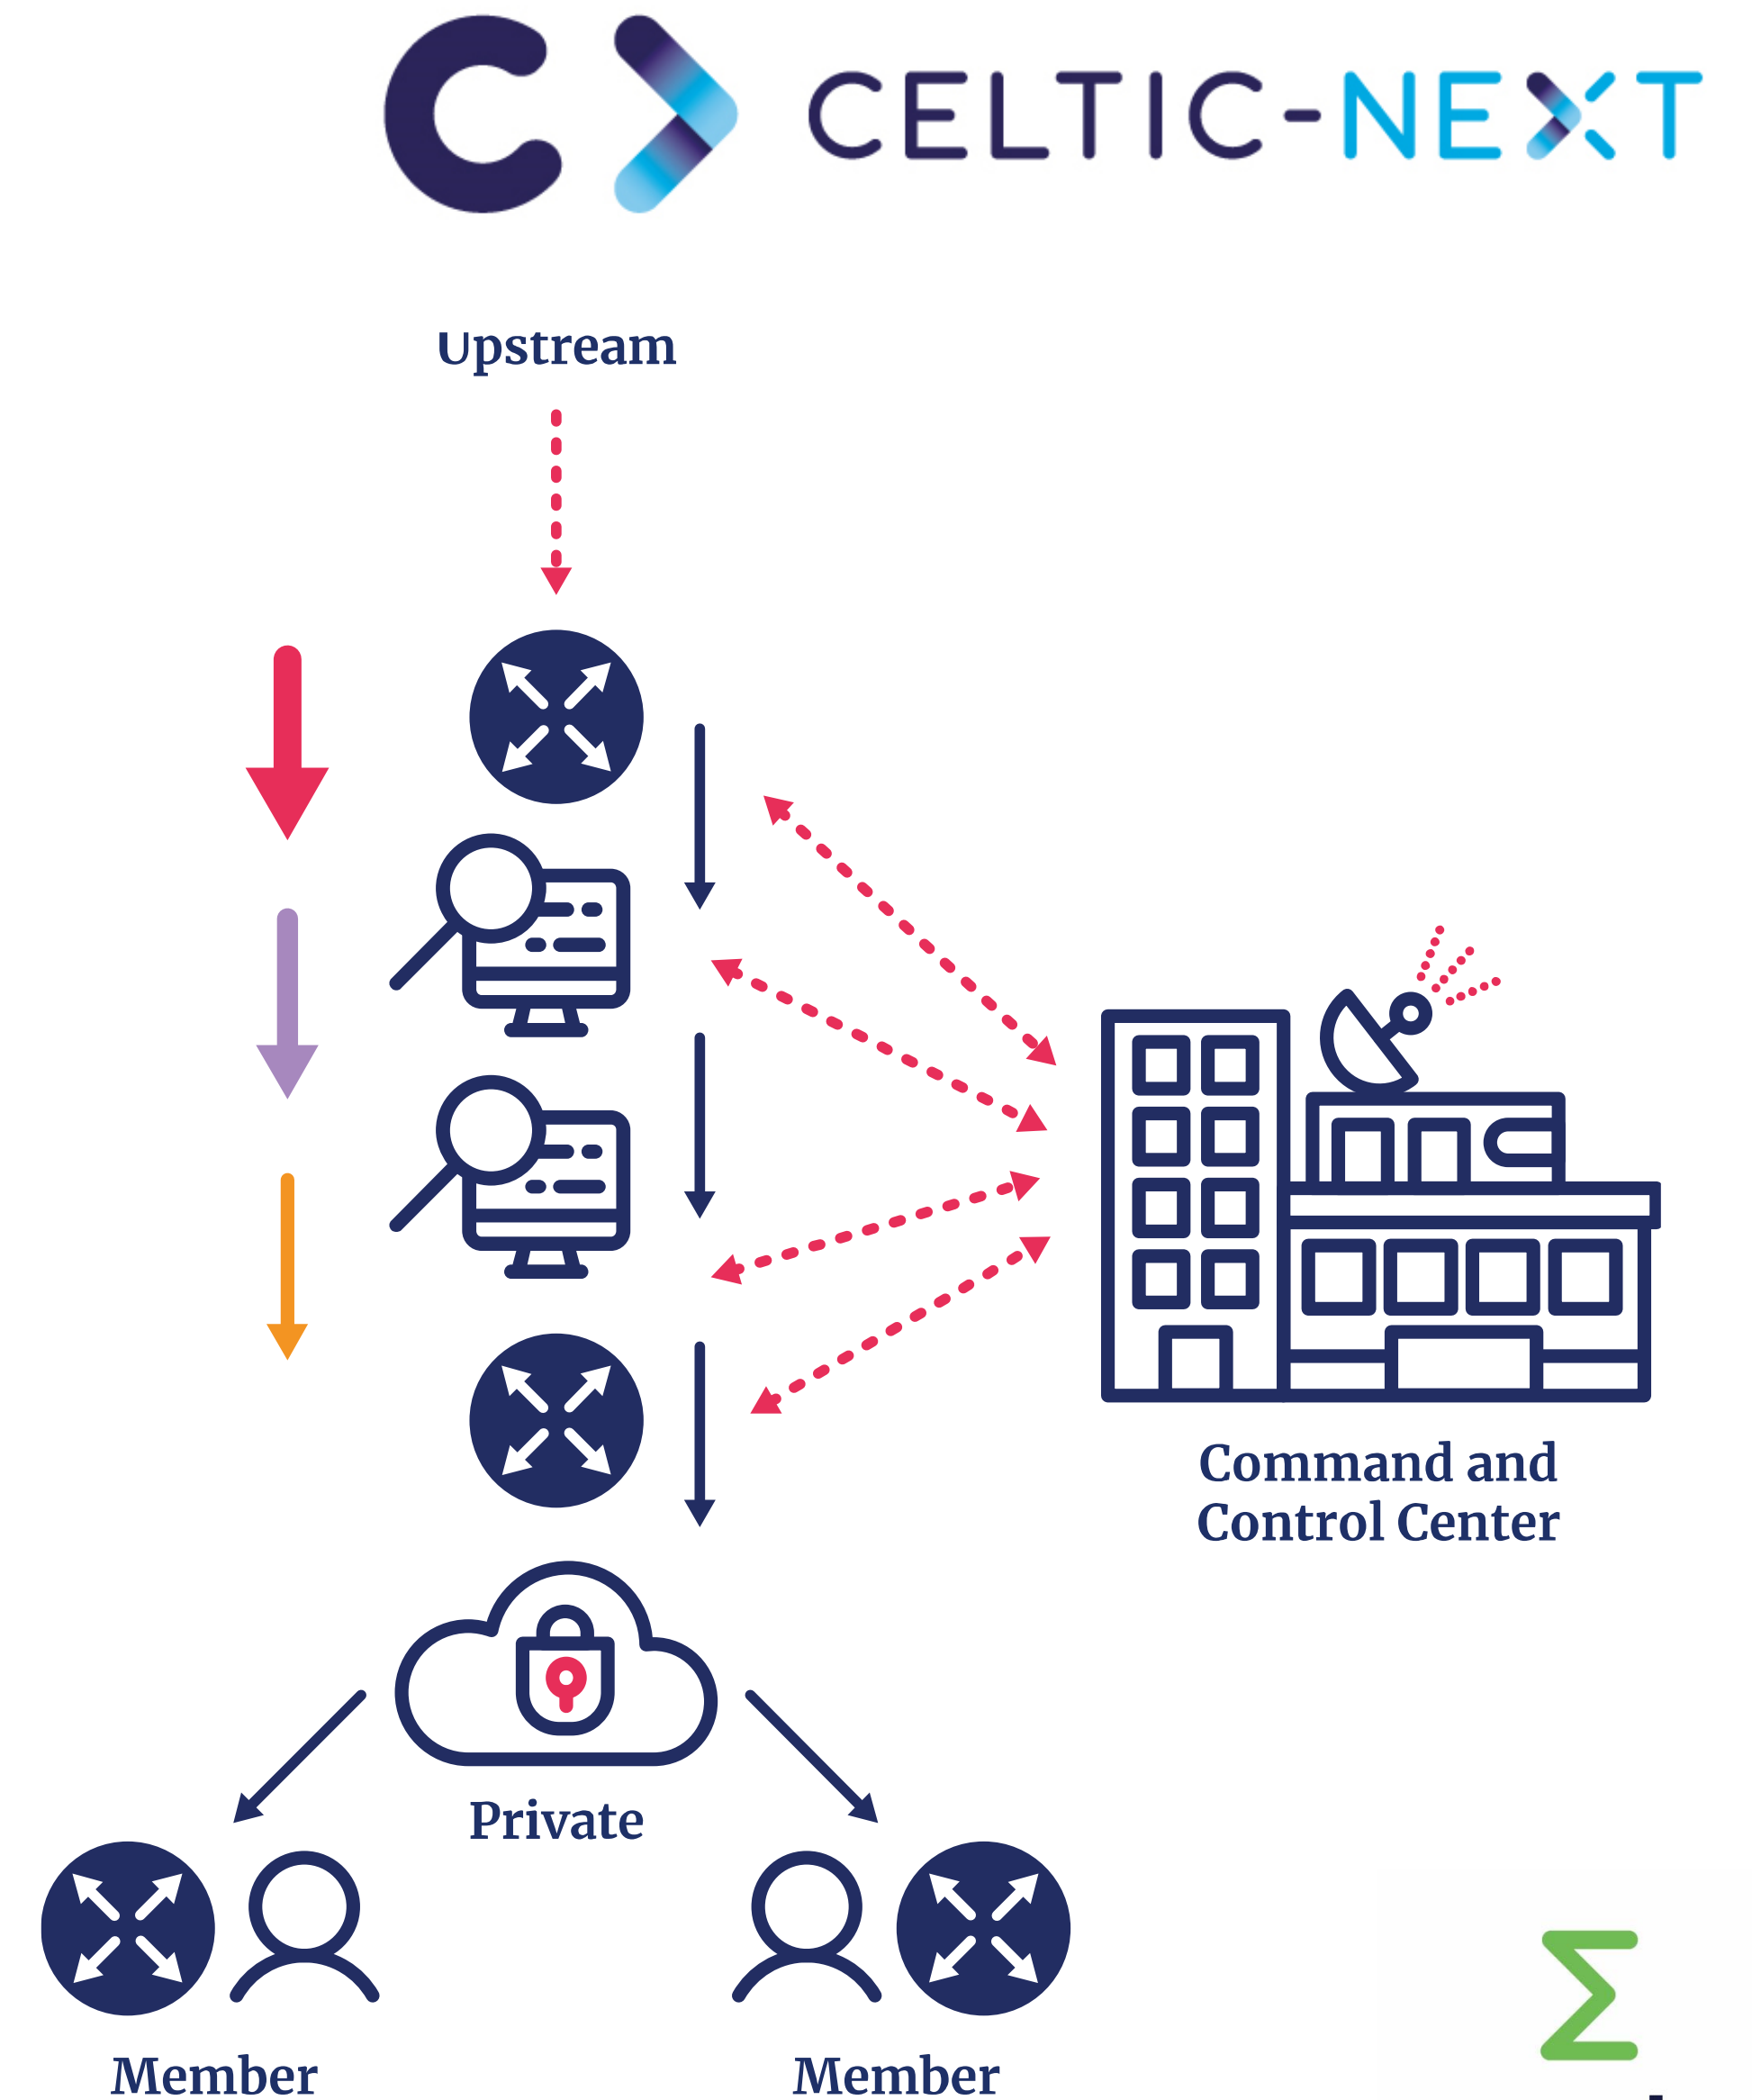

1 slide:

Expected outcome

Vendor independent services model
mitigating DDos attacks

Impacts

EU developed and based solution

Partners

1 slide:

Existing consortium, involved countries.

Belgium Telecom Authority, Belgium

Post Luxemburg, Luxembourg

Expertise, profiles and types of partners you are looking for.

European hardware and software services

Consortium Building Session

In the last week of September we will schedule a follow-up telco for your new project idea. Please fill in your availability as soon as possible but at the latest by 18th of September.

This session will be announced at the Proposers Day to the audience for you.
